

THE ASSISTANT SECRETARY OF THE NAVY
(RESEARCH, DEVELOPMENT AND ACQUISITION)
1000 NAVY PENTAGON
WASHINGTON DC 20350-1000

FEB 01 2019

The Honorable Michael R. Pence
President of the Senate
United States Senate
Washington, DC 20510

Dear Mr. President:

This provides the Navy's annual report to Congress required by the foreign ship repair statute, 10 U.S.C. § 7310, listing all repairs and maintenance performed on any covered Navy vessel in any shipyard outside the United States or Guam during the preceding fiscal year.

This foreign ship repair report covers maintenance and repair of Navy and Military Sealift Command (MSC) vessels conducted in foreign shipyards during Fiscal Year (FY) 2018. Approximately 5.2 percent of the total Navy and MSC funds for maintenance and repair were expended in foreign shipyards in FY 2018. This low level of foreign repairs was deemed essential to sustain the high operational tempo for 44 MSC ships and 85 Navy ships deployed during this period. Specifically, the data affirms that 44 MSC vessels required approximately \$111.3 million for repairs accomplished in foreign shipyards, of which approximately \$26.6 million were for voyage repairs. This represents 13 percent of the total MSC funds expended for maintenance and repair of MSC owned vessels. Eighty-five (85) Navy ships required approximately \$471.5 million for repairs accomplished by foreign contractors or in foreign shipyards, of which approximately \$182.7 million were for voyage repairs. This represents 4.5 percent of the total Navy funds expended for maintenance and repair. The enclosures provide the information requested for MSC vessels (enclosure 1), Bahrain (enclosure 2), the Western Pacific (enclosure 3), Japan (enclosure 4), Naples, Italy (enclosure 5), and Rota, Spain (enclosure 6).

The FY 2013 National Defense Authorization Act added a requirement to report foreign repairs of vessels operated pursuant to a contract entered into by the Secretary of the Navy and the Maritime Administration or the United States Transportation Command in support of Department of Defense operations. All United States Transportation Command covered naval vessels are managed and contracted by MSC. In FY 2018, there were no foreign repairs conducted on contracted vessels during their period of performance.

A similar letter has been sent to the Speaker of the House and the Chairs of the congressional defense committees. If I can be of further assistance, please let me know.

Sincerely,

James F. Geurts
